This is to confirm that Bell Media (CTV) agrees in principle to allow Radio Communautaire Cornwall-Alexandria Inc. (CHOD-FM) to co-locate their new FM radio transmitting facility at the CJOH-TV-8 transmitter site in Cornwall (Lancaster), Ontario.

If Radio Communautaire Cornwall-Alexandria Inc. (CHOD-FM) is successful in obtaining the necessary regulatory approval for such a facility, Bell Media would be willing to discuss a technically and financially acceptable agreement which would allow them to utilize the site.

If there are any questions or comments, please do not hesitate to contact me.

Regards,

Yul Lem | Senior Director, Transmission Engineering
